

# ADVOCACY BINGO

Advocacy Bingo is a fun and engaging way to help students learn and engage with important advocacy related concepts such as kindness, respect, and goal-setting. This game encourages students to understand and practice these values through interactive play. These cards can be used in a large group setting for a classroom game or during small-group instruction.

## Instructions:

1. Explain the purpose of the game to the students: "Today we're going to play Bingo with words that represent important values and actions in our community. As we learn about these words, you will mark them on your bingo card."
2. Show students the Bingo card layout. Each card has a grid with a mix of advocacy related words and a center "Free Space." Explain that the goal is to mark off words on their card as they are called out and discussed.
3. Randomly call out & discuss the advocacy related words from your list. For each word, provide a brief explanation or example to help students understand its meaning and importance.
4. Students will mark the word on their bingo card if they have it. You can choose to call out words in any order or randomly to keep the game dynamic.
5. The first student to complete a row, column, or diagonal on their card and shouts "Bingo!" wins.

## Additional Tips:

- Engage Students: Encourage students to ask questions and share their own experiences related to the words on their Bingo cards.
- Make It Fun: Keep the atmosphere lively and positive to ensure students remain engaged and interested.
- Reinforce Learning: Use the Bingo game as a springboard for further discussions or activities related to advocacy and social responsibility.
