

# KINDNESS KORNER

## MUSICAL HARMONICA

### MATERIALS NEEDED:

- 2 Jumbo Craft Sticks
- 3 Rubber Bands
- 1 Straw
- Scissors
- Paint

### INSTRUCTIONS:

1. Paint and/or design your craft sticks.
2. When dried, grab the wide rubber band and stretch it over one jumbo craft stick, lengthwise.
3. Then take your straw and cut it into two small pieces (about 1 to 1 1/2 inches) with scissors.
4. Once the the straw is cut, put one piece of the straw under the rubber band, about 2 inches from the end of the stick.
5. Then put the other piece of straw on top of the rubber band on the other end of the stick.
6. When complete, add the second craft stick on top of the first craft stick (straws should be squished between both sticks).
7. With the last two rubber bands, tie both ends of the stick, a little before the straws.
8. Finally, blow air by putting your mouth in the middle of the harmonica! Move straws closer or further apart to make different sounds.
